SUMMARY

Motivated and responsible Diploma in Computer Science student at Universiti Teknologi MARA (UiTM) Perak, Tapah Campus, maintaining a CGPA of 3.96 with consistent Dean's List achievements. Experienced in developing academic projects involving object-oriented programming, database systems, web development, and system testing using Java, C++, Visual Basic, HTML, CSS, JavaScript, PHP, and MySQL.

Strong leadership, communication, and problem-solving skills demonstrated through leading multiple group projects, presenting system developments, and collaborating in fast-paced environments. Passionate about web development, UI/UX, database systems, QA testing, and system design, while seeking internship opportunities to further develop technical and industry experience.

EDUCATION

Diploma in Computer Science **September 2024 - Present**
Universiti Teknologi MARA (UiTM) Perak, Kampus Tapah

- Current CGPA: 3.96
- Dean's List: Every Semester
- Currently in Semester 4

TECHNICAL SKILLS

Programming Languages: Java, C++, Visual Basic, HTML, CSS, JavaScript, PHP
Database: MySQL, Microsoft Access
Technical Skills: Object-Oriented Programming (OOP), Database Design, System Development, Debugging, Testing & Troubleshooting, ERD & UML Design, Flowchart Development, Front-end Development, UI/UX Fundamentals
Software & Tools: BlueJ, Visual Studio Code, Microsoft Office, Adobe Photoshop, IntelliJ IDEA, Dev-C++

PROJECTS

MUNCH – Food Ordering & Restaurant Management Website

- HTML, CSS, JavaScript, PHP & MySQL | Team Leader
- Currently leading a project on developing a web-based food ordering and restaurant management system with reservation functionality.
- Responsible for front-end development, UI/UX design, database structure design, and database development.
- Developed key modules including landing page, login system, reservation system, and staff ordering functions.
- Designed ERD, UML diagrams, and flowcharts to support system planning and development.

Personalized Adaptive Learning System

System Design Project | Academic Project | Team Leader

- Designed an innovative personalized adaptive learning system focused on improving students' study efficiency and learning experience.
- Proposed features including Pomodoro study tracking, reward-based motivation system, subject prioritization suggestions, and personalized study time allocation.
- Applied problem-solving, system analysis, and user-focused design thinking throughout the project planning process.

Food Donation Bank Operation System

Java (BlueJ) | Object-Oriented Programming | Group Project

- Developed a food donation management system using object-oriented programming concepts in Java.
- Implemented features including login authentication, donation tracking, inventory management, and donation distribution updates.
- Responsible for developing inventory supply functions, updating donation distribution processes, and creating dummy data for system testing.

Food Ordering System

Visual Basic & Microsoft Access | Group Project

- Developed a food ordering system using Visual Basic and Microsoft Access.
- Implemented ordering, payment, receipt generation, and administrative management features.
- Assisted in system testing, debugging, and troubleshooting to improve functionality and user experience.

WORK EXPERIENCE

Promoter – Costa Coffee | Part-Time

February 2026

- Repeatedly recruited for promotional events due to strong communication and customer service performance.
- Assisted customers, promoted products, and supported sales activities in fast-paced environments.

Clinic Assistant, Klinik Anda 24 Jam Puncak Jalil | Full-Time

April 2024 - July 2024

- Managed patient registration, appointment scheduling, and customer inquiries professionally.
- Assisted in inventory management and ensured medical supplies were well-organized.
- Supported daily clinic operations while maintaining confidentiality and professionalism.

Crew Member, Rakan Muda Kaler Fun Run | Part-Time

2024 - 2025

- Assisted in crowd handling and event operations during peak periods.
- Worked collaboratively with team members to ensure smooth event execution.

AWARDS, LEADERSHIP & ACTIVITIES

- Consistent Dean's List Recipient; GPA 4.00 in Semester 2 and Semester 3
- 1st Place – State STEMPRENEUR Competition
- 3rd Place – National STEMSHOW Competition
- Participant – Business Model Canvas Project Competition
- President of Police Cadet and Cultural Club during secondary school, actively involved in competitions and leadership camps up to state level

LANGUAGES

- **Malay:** Native proficiency
- **English:** Advanced proficiency (CEFR C1 – SPM)
